## I. ELIGIBILITY CRITERIA

All local law enforcement agencies are eligible to submit one application for the FY22 Markell Hendricks Youth Crime Prevention and Diversion Parole grant program. Priority will be given to those jurisdictions with the highest number of offenders. "Offender" has the meaning indicated in [§ 6–101 of the Correctional Services Article](#) as "an individual on parole or under mandatory supervision."

Additional priority will be given to law enforcement agencies that plan to implement juvenile diversion efforts within the following jurisdictions: Anne Arundel County, Baltimore City, Baltimore County, Montgomery County and Prince George's County. According to FY20 statewide referral to DJS Court/Intake data reported by Maryland's Department of Juvenile Services, over half (55%) of the 14,913 of the youth referrals were accumulated within the aforementioned jurisdictions. This funding opportunity will be vital for the reduction of unnecessary system involvement and preventing youth from experiencing deeper dives into Maryland's juvenile justice system.

**Only one application may be submitted per agency.**

## II. PROGRAM DESCRIPTION

### A. Requiring Agency

Governor's Office of Crime Prevention, Youth, and Victim Services (Office)

### B. Opportunity Title

FY21 Markell Hendricks Youth Crime Prevention and Diversion Parole Grant Program

### C. Submission Date

May 7, 2021

### D. Anticipated Period of Performance

July 1, 2021 to June 30, 2022

### E. Funding Opportunity Description

#### **Markell Hendricks Youth Crime Prevention and Diversion Parole Grant Program**

In accordance with [Chapter 738, HB1348 \(2019\)](#), a new grant fund to be administered by the Office was created to provide grant assistance to local law enforcement agencies for diversion programs or youth engagement programs in high-crime areas. **The Office anticipates having up to \$100,000 available and making up to five (5) awards of a minimum of \$20,000 each.**

A law enforcement agency that applies for a grant from the fund shall provide the Office with a plan that details how their proposed program will focus on creating strategic outreach and youth diversion programming designed to divert threshold youth offenders from formal processing into the juvenile justice system and mitigating barriers for youth at the beginning stages of delinquency.

Funds may be used to supplement, and not supplant, any other funding that would otherwise be available to local law enforcement agencies.

**ALL FUNDING IS CONTINGENT UPON AVAILABILITY OF FUNDS AND MAY BE AMENDED TO REFLECT CHANGES IN THE FINAL BUDGET APPROPRIATION BY THE GENERAL ASSEMBLY AND OTHER BUDGETARY ACTIONS OF THE BOARD OF PUBLIC WORKS.**

**FUNDING DECISIONS ARE FINAL AND NOT SUBJECT TO APPEAL OR RECONSIDERATION.**

### **III. PROGRAM REQUIREMENTS**

A diversion program must comply with [§ 3-8A-10\(M\)\(2\) of the Courts Article](#), which states:

*"If a child is referred to a diversion program, the law enforcement officer may file the complaint with an intake officer more than 30 days after but no later than 120 days after the law enforcement officer took the child into custody."*

Programs/strategies should focus on creating outreach and programming designed to divert youth that have committed threshold offenses from formal processing into the juvenile justice system. These diversion programs should also include youth involved in school-based offenses. The goal is to reduce the number of youth entering the juvenile justice system by providing supportive services within the communities in which they reside.

Successful applications to address this population will:

- A. Implement diversion efforts with an intentional focus to address Racial and Ethnic Disparities at the front-end of Maryland's juvenile justice system.
- B. Work directly and collaborate with local law enforcement, State's Attorneys' Offices, and other partners to develop or enhance community-based outreach and programming to divert low-risk youth away from formal processing in the juvenile justice system. Other partners may include, but are not limited to, the Department of Juvenile Services Regional Office representative, Maryland's Statewide Racial and Ethnic Disparities (RED) Coordinator, community association groups, youth advocate groups, youth development programs, local school systems, and the Juvenile Court Magistrate or Judge.
- C. Include pro-social activities, connections to services and supports for youth and families, employment- readiness and career development training and team mentoring and/or supervision in the community.
- D. Develop outreach/programming for youth at-risk of being recruited by gangs (even if the youth has not had previous law enforcement contact) by working with local partners to focus on communities with high gang membership and activity.
- E. Include objective indicators of success for youth referred to the diversion program to be compiled by the program administrator on an annual basis. Such measurements include, but are not limited to: school attendance, employment, whether the youth is living at home and additional law enforcement contact.

Required performance measures for which data must be reported on a quarterly basis include:

- Number of and/or percent of participants at risk of entering the juvenile justice system who were alternatively provided supportive services within their community;
- Number of and/or percent of youth referred to a diversion program by law enforcement;
- Number of and/or percent of youth referred to a diversion program by the Department of Juvenile Services
- Number of and/or percent of youth who **successfully complete** the requirements of the diversion program (versus formal system processing)
- Number of and/or percent of youth who did not complete the requirements of the diversion program

- and cases were formally processed
- Number of and/or percent of parents satisfied with the outcome of the diversion program
- Number of and/or percent of youth not referred back for a diversion program
- Number of and/or percent of youth not referred to the Department of Juvenile Services within 6 months of program completion
- Number of and/or percent of youth not referred to the Department of Juvenile Services within 12 months of program completion

See Appendix A for details on the required measures and data collection necessary.
